

## Sample the Stain Before You Buy

Proper sampling is where it starts. Sampling is critical because the same stain can look very different on various species of wood as demonstrated by the color samples in this brochure. Different prep and application methods also affect the final result. Therefore, sampling is the only way to make sure you get the color you want the first time.

Sampling is easy: on a small, inconspicuous test area (we recommend a minimum 2 sq. ft. space), simply do each step the way you will on the entire deck or fence.

- Prep the wood
- Apply the stain
- Let the stain dry (both between coats and after all coats have been applied)
- If working with a contractor, don't allow the contractor to stain until you have thoroughly discussed and demonstrated the look you want. Show him/her the sample.
- Don't stain the entire deck or fence before you verify that you're achieving the look you want. It is best if you can be on-site during the staining process.

For more information on proper prep and application methods, visit our website at [www.sashco.com](http://www.sashco.com) or scan the Tag on this brochure to access it from your smart phone.

## Transformation Stain® Deck & Fence 1 Coat vs 2 Coats

The number of coats you apply makes a difference in the final color. The more coats you apply, the darker the color. So sample first!

## Transformation Stain® Deck & Fence on Wood Species

	Pressure Treated	Redwood	Pine
Natural			
Cedar			
Gold Tone Medium			
Red Tone Medium			
Brown Tone Medium			
Redwood			

The color samples shown are an approximation of how Transformation Deck & Fence will look on your deck or fence. The color may vary based on the species, texture and porosity of wood as well as the application technique. Test the stain on an inconspicuous area to make sure you get the color you want.

## “A Better Way to Stain”

### Reality check:

When applied incorrectly, a high quality stain will give you the same result as a low quality stain.

At Sashco, we want to help you avoid that pitfall. Sashco’s Transformation Deck & Fence is the quality product you’re looking for, bundled with the support and education necessary to do it right the first time. It’s what we call “A Better Way to Stain.” The result is a beautiful deck or fence you can enjoy for years to come.

### Sampling

To get the look you want, sample the stain on your wood.

### Prep

Proper prep starts you down the right path.

### Application

Proper application of a quality stain ensures long-term performance.

### Routine Maintenance

Reduce long-term costs, time and effort.

*Note: For detailed prep, application and maintenance info visit [www.sashco.com](http://www.sashco.com)*

## Why Transformation Stain® Deck & Fence?

- **Easy “No Sanding” Maintenance\*:** Do a light power wash, allow the wood to dry and apply a maintenance coat. No sanding or stain removal necessary.
- **Shows the Wood Grain:** Wood is beautiful. So why hide it?
- **Easy Water Clean-Up:** Since it’s water-based, water is all that’s necessary to clean up wet stain.
- **Superb Color Portfolio, Matte Finish:** Rich colors combine with a matte finish to give the wood a beautiful natural look.
- **Easy to Choose:** For Decks & Fences. No confusing names or convoluted labels.

*\*When staining over wood or a previous stain that is in good shape. Maintain regularly (1-2 years on decks and 3-4 years on fences) to have Easy “No Sanding” Maintenance be your reality.*
